REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a video signal processor apparatus/method for detecting and analyzing a visual and/or audio pattern reflecting the semantics of the content of a supplied video signal. Each independent claim identifies the uniquely distinct features "detecting, according to the feature and similarity measurement criterion, two of the segments, whose mutual time gap is within a predetermined temporal threshold and mutual dissimilarity is less than a predetermined dissimilarity threshold, and grouping the segments into a scene consisting of a sequence of temporally consecutive segments reflecting the semantics of the signal content". The closest prior art, Hong et al (EP 0 555 028 A2), Nagasaka et al (US 6,587,637 B2), and Foote et al (US 6,774,917 B1) disclose conventional scene change detecting, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thai Tran whose telephone number is (571) 272-7382. The examiner can normally be reached on Mon. to Friday, 8:00 AM to 5:30 PM.
